SORG Modular Training Series

Anesthesia, Preprosthetic & Dental Implants

History

In 1989, twenty surgeons came together in Strasbourg to study and promote the use of rigid fixation techniques. The organization they formed became known as the Strasbourg Osteosynthesis Research Group, or SORG. The society has grown internationally, and in 2007, the North American SORG was founded.

Goals

- Strengthen the discipline of surgery through education and research.
- Provide educational content that meets the needs of the training program, resident, and private practitioner.
- Facilitate relationships between teaching programs, private practitioners, sub-specialty experts, and technical experts to improve patient care.

Modular Training Series

The Modular Training Series is designed to improve and maintain the skills of the Oral & Maxillofacial Surgeon in a series of weekend courses.

The modules are divided into four categories with training events held nationally twice per year.

1 Pathology, Head & Neck Reconstruction *Spring 2022*

2 Congenital & Developmental Deformities *Fall 2022*

3 Anesthesia, Preprosthetic & Dental Implants *April 9 - 11, 2021 · KLS Martin WORLD, NA · Jacksonville, FL*

4 Trauma, TMJ & Cosmetic Surgery *Fall 2021*

SORG Modular Training Series

Anesthesia, Preprosthetic & Dental Implants

Purpose

- Module 3 focuses on developing the knowledge and skills of the oral and maxillofacial surgeon in the key areas of medical evaluation, outpatient anesthesia, preprosthetic surgery and implant surgery.
- The course is designed to increase the participants' knowledge and skills in patient evaluation and management, anesthetic agents and techniques, management techniques in special populations, evaluation and management of complications, and anesthetic medical emergencies.
- In addition, the participant will learn the techniques and skills necessary to manage a broad range of patients including implant placement in the esthetic zone, posterior and full arch reconstruction, grafting and site development techniques for both soft and hard tissues, and the skills necessary to treatment plan and assist the restorative dentist in their prosthetic rehabilitation.

Learning Objectives

At the conclusion of the course the participant will be able to:

- Understand the principles and concepts of medical evaluation and its application to systemic diseases as they relate to outpatient anesthesia.
- Utilize varying anesthetic agents and techniques to provide safe outpatient ambulatory anesthesia.
- Understand the special needs and techniques necessary for pediatric, geriatric, and special needs patient populations.
- Understand anesthetic emergencies and complications and be able to apply those skills to scenario based morbidity and mortality patients.
- Gain the understanding and skills necessary for implant treatment planning and prosthetic considerations in implant rehabilitation.
- Understand and apply the techniques of grafting of both hard and soft tissues in the site development for prosthetic and implant rehabilitation.
- Understand the concepts and to be able to utilize them in the placement of implants in the esthetic zone and the associated soft tissue management.
- Understand and apply the basic principles to facilitate placement and implant reconstruction in posterior, multi-tooth, and full arch implant rehabilitation.

SORG Modular Training Series

Anesthesia, Preprosthetic & Dental Implants

Board Advisor

Gregory Ness, DDS, FACS

D.P. Snyder Professor of Oral Surgery
Division of Oral and Maxillofacial Surgery and Dental Anesthesiology
The Ohio State University College of Dentistry
Board Member, SORG North America

Course Director

George R. Deeb, DDS, MD, FACS

Professor and Vice Chairman
Department of Oral and Maxillofacial Surgery
Virginia Commonwealth University
Preprosthetic Section Chair, SORG North America

Faculty

Eric J. Dierks, MD, DMD, FACS, FACD, FRCS(Ed)

Board Advisor
Founder of Fellowship in Head and Neck Oncologic and
Microvascular Reconstructive Surgery
The Head and Neck Institute
Affiliate Professor of Oral and Maxillofacial Surgery
Oregon Health and Science University
Immediate Past Chairman, SORG North America

Faculty

Janina Golob Deeb, DDS, MS

Associate Professor and Director of Predoctoral Periodontics
Department of Periodontics
Virginia Commonwealth University

Pedro Franco, DDS

Private Practice
DFW Oral & Maxillofacial Surgery
Irving, TX
Preprosthetic Section Member, SORG North America

Brett J. King, DDS

Associate Clinical Professor
Assistant Residency Program Director (OMFS)
Department of Oral & Maxillofacial Surgery
Department of Surgery, Division of Plastic and Reconstructive Surgery
LSU Health Sciences Center - New Orleans
Preprosthetic Section Member, SORG North America

Deepak G. Krishnan, DDS, FACS

Associate Professor of Surgery
Residency Program Director
Oral & Maxillofacial Surgery
University of Cincinnati Medical Center
Orthognathic Section Member, SORG North America
Preprosthetic Section Member, SORG North America

Bach Le, DDS, MD, FICD, FACD

Clinical Associate Professor
Department of Oral & Maxillofacial Surgery
USC School of Dentistry
Private Practice
Whittier, California

Luis Vega, DDS

Associate Professor
Residency Program Director
Department of Oral & Maxillofacial Surgery
Vanderbilt University Medical Center
Preprosthetic Section Past Chair, SORG North America

SORG Modular Training Series

Anesthesia, Preprosthetic & Dental Implants

Program

Friday, April 9, 2021

1:00 pm	–	1:15 pm	Introduction	
1:15 pm	–	2:15 pm	Bone Grafting to Facilitate Implant Placement (Ridge Augmentation)	<i>G. Deeb</i>
2:15 pm	–	3:15 pm	Multimodal Analgesia	<i>D. Krishnan</i>
3:15 pm	–	3:30 pm	Break	
3:30 pm	–	4:30 pm	The Lost Art of Vestibuloplasties	<i>D. Krishnan</i>
4:30 pm	–	5:30 pm	Bone Grafting to Facilitate Implant Placement (Sinus Lift Procedures)	<i>G. Deeb</i>
5:30 pm	–	6:30 pm	Welcome Reception	

Saturday, April 10, 2021

7:00 am	–	8:00 am	Continental Breakfast	
8:00 am	–	9:00 am	Emergency Airway: Salvaging an Anesthetic Disaster	<i>E. Dierks</i>
9:00 am	–	11:15 am	Implant Failures and Re-treatments - Implications for Management	<i>B. Le</i>
11:15 am	–	11:30 am	Break	
11:30 am	–	12:30 pm	Pediatric Outpatient Inhalational Anesthesia	<i>B. King</i>
12:30 pm	–	1:30 pm	Lunch	
1:30 pm	–	2:30 pm	Anesthesia M&M Case Based Scenarios	<i>B. King</i>
2:30 pm	–	3:30 pm	Immediate Placement of Implants After Tooth Extraction	<i>P. Franco</i>
3:30 pm	–	3:45 pm	Break	
3:45 pm	–	6:00 pm	Full Arch Rehabilitation Guided vs Freehand vs Trefoil	<i>P. Franco</i>
6:30 pm	–	8:30 pm	Course Dinner	

Program

Sunday, April 11, 2021

7:00 am – 8:00 am	Continental Breakfast	
8:00 am – 10:00 am	Zygoma Implants	<i>L. Vega</i>
10:00 am – 10:15 am	Break	
10:15 am – 11:15 am	Soft Tissue Grafting for the Oral and Maxillofacial Surgeon	<i>J. Deeb</i>
11:15 am – 12:00 pm	Peri Implantitis Etiology, Diagnosis and Treatment	<i>J. Deeb</i>

SORG Modular Training Series

Anesthesia, Preprosthetic & Dental Implants

Course Venue

KLS Martin WORLD, North America
11196 St Johns Industrial Pkwy S
Jacksonville, Florida 32246

Registration

General Registration - \$395*

Resident Registration - \$195*

**Registration includes continental breakfast (must book hotel in room block to receive breakfast) on both Saturday and Sunday, Friday night reception, Saturday lunch and social dinner.*

Additional registration and accomodation information coming soon
